DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 10, 11, 15 and 17, drawn to a method of determining whether or not the binding of a molecule to a ligand is specific.

Group II, claim(s) 12-14, 16 and 18, drawn to a method of determining whether or not the binding of a molecule to a ligand is specific.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because under PCT Rule 13.2 they lack the same or corresponding special technical features for the following reasons:

Groups I-II are methods directed at determining whether or not the binding of a molecule to a ligand is specific or not. Group I requires only a once treated liquid and Group II does not require this limitation. Group II requires dividing a sample into first and second portions and Group I does not require this limitation. Also, Group II requires an inert substance and Group I does not require this limitation. Group II also requires a first twice-treated liquid and Group I does not require this limitation. Therefore, there are two different methods with different method steps. Under Rule 13 Applicant is entitled to one product, one method of making and one method of using.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
